

The Canopy Vault Caper

Grade 3 math · Place value, Rounding, Addition, Subtraction, Division · Reading level grades 3-4

Detective: _____ Date: _____

The Golden Acorn of Destiny is missing from the treehouse vault! The Jungle Scouts need your help to track down the culprit before the great jungle storm begins.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Phantom Explorer is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1 Place value

We found a digit lock on the vault door. The glowing lights show numbers in the hundreds place.

Solve each problem, then write its letter in every clue box that shows the same number.

CLUE 5**Division facts (1-12) - the last clue**

We found a box of stolen bananas. If we share them equally among the monkeys we can find the clue.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$36 \div 12 = \square$

$35 \div 7 = \square$

$50 \div 5 = \square$

$12 \div 6 = \square$

$8 \div 1 = \square$

$24 \div 6 = \square$

$35 \div 5 = \square$

$36 \div 4 = \square$

$12 \div 2 = \square$

$36 \div 3 = \square$

$6 \div 6 = \square$

Step 2 - cross out the sentence with each answer:

1. The villain soared down using a glide suit, then escaped as their pet parrot squawked.
2. The villain swung in on a grappling hook, then sneaked out with a baby chameleon on their arm.
3. The villain scaled the tree with climbing spikes, then slipped off as their pygmy owl hooted.
4. The villain shined a bright laser flashlight, then ran away with a pocket squirrel on their shoulder.
5. The villain shined a bright laser flashlight, then escaped as their pet parrot squawked.
6. The villain swung in on a grappling hook, then fled while their helper monkey threw fruit.
7. The villain scaled the tree with climbing spikes, then ran away with a pocket squirrel on their shoulder.
8. The villain scaled the tree with climbing spikes, then fled while their helper monkey threw fruit.
9. The villain swung in on a grappling hook, then slipped off as their pygmy owl hooted.
10. The villain chopped vines with a jungle machete, then slipped off as their pygmy owl hooted.
11. The villain chopped vines with a jungle machete, then sneaked out with a baby chameleon on their arm.
12. The villain shined a bright laser flashlight, then fled while their helper monkey threw fruit.
