Detective: _____ Date: _____

Someone took the Golden Acorn from the Treehouse Kingdom! The chief ranger needs your help to search the high branches and find the sneaky bandit before sunset.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the sneaky bandit is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Fractions of a number - the last clue**

We found a map torn into small bits. We must count how many fractions of the map we have put back together.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$\frac{1}{2}$ of 10 =

$\frac{2}{6}$ of 9 =

$\frac{2}{10}$ of 45 =

$\frac{1}{5}$ of 10 =

$\frac{1}{2}$ of 14 =

$\frac{3}{8}$ of 16 =

$\frac{2}{4}$ of 2 =

$\frac{5}{10}$ of 8 =

$\frac{8}{10}$ of 15 =

$\frac{4}{8}$ of 22 =

$\frac{4}{6}$ of 15 =

Step 2 - cross out the sentence with each answer:

1. The villain shines a laser flashlight, then points at the North Star.
2. The villain swings on a grappling hook, then builds a wooden bridge.
3. The villain climbs up a rope, then builds a wooden bridge.
4. The villain swings on a grappling hook, then rides down the zipline.
5. The villain checks a pocket compass, then points at the North Star.
6. The villain climbs up a rope, then bakes some trail mix biscuits.
7. The villain checks a pocket compass, then rides down the zipline.
8. The villain checks a pocket compass, then examines the secret map.
9. The villain uses a magnifying glass, then points at the North Star.
10. The villain shines a laser flashlight, then rides down the zipline.
11. The villain shines a laser flashlight, then bakes some trail mix biscuits.
12. The villain shines a laser flashlight, then builds a wooden bridge.
