

The Lost Ender Dragon Egg

Grade 5 math · Addition, Subtraction, Multiplication, Fractions of a number, Division · Reading level grades 3-4

Detective: _____ Date: _____

Oh no! Someone broke into the spawn castle on the Blocky SMP and stole the rare Ender Dragon Egg! The server owner is super upset. We need to find the sneaky griever before they hide the egg forever. Use your math skills to crack the codes and save the server!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the griever is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1 Addition

We found a double chest with leftover block supplies! Let us add up all the cobblestone and dirt blocks to see what gear the thief did not bring.

Solve each problem, then write its letter in every clue box that shows the same number.

CLUE 5**Division facts (1-12) - the last clue**

The griever shared their stolen iron ingots into equal piles for their team. Let us divide the total loot to trace where they ran.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$24 \div 2 = \boxed{}$

$11 \div 11 = \boxed{}$

$45 \div 9 = \boxed{}$

$54 \div 9 = \boxed{}$

$54 \div 6 = \boxed{}$

$6 \div 3 = \boxed{}$

$21 \div 7 = \boxed{}$

$48 \div 6 = \boxed{}$

$77 \div 11 = \boxed{}$

$48 \div 12 = \boxed{}$

$11 \div 1 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain threw an ender pearl, then made a water bucket clutch.
2. The villain built a redstone trap, then escaped using netherite armor.
3. The villain bridged across the void, then saved themselves with a totem.
4. The villain bridged across the void, then flew away with an elytra.
5. The villain bridged across the void, then blew up the wall with tnt.
6. The villain tamed a pack of wolves, then made a water bucket clutch.
7. The villain bridged across the void, then made a water bucket clutch.
8. The villain built a redstone trap, then saved themselves with a totem.
9. The villain brewed a swiftess potion, then saved themselves with a totem.
10. The villain built a redstone trap, then blew up the wall with tnt.
11. The villain brewed a swiftess potion, then escaped using netherite armor.
12. The villain threw an ender pearl, then flew away with an elytra.
