

The Missing Golden Trophy

Grade 2 math · Multiplication, Subtraction, Addition, Rounding, Missing addends · Reading level grades 1-2

Detective: _____ Date: _____

Oh no! The shiny Golden Trophy is missing from the team clubhouse. The match starts very soon. We must use our soccer math skills to find the rogue player who took it!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the rogue player is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.
