

The Spawn City Griefer

Grade 3 math · Rounding, Addition, Subtraction, Multiplication, Division · Reading level grades 3-4

Detective: _____ Date: _____

A sneaky player has flooded the spawn city with lava and trapped the farm animals! The server admin needs your help to read the chat logs, solve the puzzles, and catch the pixelated culprit.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the griefer is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1 Rounding

A broken radar in the spawn lobby is showing rounded numbers of blocks placed. We must round them to the nearest ten to unlock the first database file.

Solve each problem, then write its letter in every clue box that shows the same number.

We found chest logs with separate tallies of redstone dust. Add the stacks together to see the total count and boot up the next terminal.

Solve each problem, then write its letter in every clue box that shows the same number.

The diagram consists of two rows of boxes. The top row has 18 boxes, and the bottom row has 12 boxes. Some boxes are shaded orange and contain the letter 'T'. Below each box is a number.

CLUE 5**Division facts (1-12) - the last clue**

We recovered a stack of gold ingots to share among the villagers. Divide the loot equally to solve the final server lock.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$70 \div 10 = \boxed{}$

$21 \div 7 = \boxed{}$

$20 \div 10 = \boxed{}$

$99 \div 9 = \boxed{}$

$56 \div 7 = \boxed{}$

$12 \div 1 = \boxed{}$

$100 \div 10 = \boxed{}$

$40 \div 10 = \boxed{}$

$60 \div 10 = \boxed{}$

$5 \div 5 = \boxed{}$

$63 \div 7 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain swung their diamond pickaxe through walls, then fired explosive blocks with a tnt launcher.
2. The villain swung their diamond pickaxe through walls, then cracked open a mystery lucky block.
3. The villain swung their diamond pickaxe through walls, then flew away using elytra wings.
4. The villain fired shots from an enchanted bow, then cracked open a mystery lucky block.
5. The villain chopped wooden doors with an iron axe, then zapped out of sight with a teleport staff.
6. The villain slashed with a netherite sword, then tipped over a glowing lava bucket.
7. The villain fired shots from an enchanted bow, then flew away using elytra wings.
8. The villain chopped wooden doors with an iron axe, then tipped over a glowing lava bucket.
9. The villain chopped wooden doors with an iron axe, then fired explosive blocks with a tnt launcher.
10. The villain fired shots from an enchanted bow, then tipped over a glowing lava bucket.
11. The villain dug a trench with a golden shovel, then flew away using elytra wings.
12. The villain swung their diamond pickaxe through walls, then tipped over a glowing lava bucket.
